Conference

“
The Subsea
Valley
Conference
2016 will
present top-
level panel
discussions
and keynote
sessions
”

The Subsea Valley Conference has in just a few years established itself as one of the leading energy and technology conferences in Europe. The 2016 conference will bring together world-class speakers and highly acknowledged industry leaders to present their views on our energy future, technology, innovation, the industry and market situation.

The program committee has selected a range of exciting themes and challenges, and we look forward to welcoming you to two days of insight and inspiration. The Subsea Valley Conference 2016 will present top-level keynote sessions followed by 30-40 high-quality technical sessions, offering *energy for innovation* for leaders, engineers, innovators, investors, academics and politicians.

Exhibition

In 2016, we return to Telenor Arena at Fornebu as the perfect location for gathering the energy industry of Subsea Valley, providing excellent facilities for the exhibition. Alongside the conference, the exhibition will showcase the latest technology developments, new innovative products, new company launches and industry services.

From SSV2015: 83% of the conference delegates found the Exhibition an important part of the Conference!

Further information for exhibitors is outlined at www.ssvconference.com. The conference webpage provides details on stand booking along with prices and other relevant information.

Social Events

Welcome reception

Lundin Norway and Subsea Valley once again have the pleasure of inviting all guests to our Welcome event at the Astrup Fearnley Museum, beautifully located by the Oslo Fjord in a building designed by world-renowned architect Renzo Piano. The museum houses one of Norway's most important and extensive private collections of contemporary art.

Please join us on April 5th from 18.00 for a brilliant opportunity to socialise and meet fellow colleagues, conference delegates and exhibitors.

Banquet dinner

The banquet dinner will take place on Wednesday, April 6th, and gathers more than 300 guests for an outstanding dinner, entertainment, social mingling and professional networking.

Industrial Policy Seminar

In 2016, Subsea Valley is proud to present the very first Subsea Valley Industrial Policy Seminar. On April 5th, the SSV Industrial Policy Seminar will gather a wide range of executives, politicians, academics and industrial representatives to discuss national industrial competitiveness, innovation challenges and the revitalisation of the industrial ecosystem in Norway.

Subsea Valley Technology Park

We are very pleased to present the Subsea Valley Technology Park 2016! We continue the success from 2015: Highlighting new and innovative technology and companies in a designated area of the exhibition hall.

Call for Proposals:

We invite you to submit your proposal by sending a short description of a technology and/or company meeting the following criteria:

1. New and innovative
2. Broad industry appeal

If the technology or associated competence can be applied across industrial sectors, please describe. This will be considered positive for the application.

The selected candidates will be offered free exhibition space, one-to-one meetings with professional venture capitalists, input and advice on strategy, IPR and business plan.

Submit your proposal at: conference@subseavalley.com

School Event

From 400 to 800 to 1200 in 2016! Statoil and Subsea Valley are proud to welcome the Technology and Science heroes of tomorrow, gathering 1200 young pupils in the age of 10-12 years for an afternoon of exciting speakers and themes. The event will take place on April 7th from 12.30 – 14.30.

Dr. Pascal Lee from Mars Institute visited us in 2014, and we are very pleased to announce that Pascal will be back in 2016. Schools and classes interested in signing up for the event, please contact us at: conference@subseavalley.com

Sponsorships

Sponsorship and advertising options to intensify brand awareness and provide high profile exposure before, during and after the Subsea Valley Conference 2016, are outlined below:

Annual SSV Banquet Dinner

The annual SSV Banquet dinner brings together exhibitors and conference delegates for an outstanding banquet dinner on the evening of the first conference day. The 2015 banquet dinner scored record high on food and entertainment, so the popularity of this event is high and increasing. With more than 300 dinner guests, sponsoring the SSV Banquet Dinner will offer excellent profiling and network opportunities before and during the conference.

Exhibit and Conference Entrance

With the brand new entrance at Telenor Arena, this will be an ideal opportunity to promote your company for all exhibitors, conference delegates, press/journalists and visitors when they arrive, enter, register and before leaving the arena.

Lanyards

Lanyards for the SSV2016 will put your logo around the neck of thousands of attendees and make sure your logo is visible for two full days during the conference and exhibition.

Luncheons

Promote your Company for hundreds of delegates, exhibitors and visitors by sponsoring the two high quality luncheons being served centrally in the exhibition and conference area during the SSV2016.

Conference Programme

Full or ½ page, 4-color advertisement in the Conference and Exhibition Programme, printed in 2-3000 copies.
