

*The Vladimir Filanovsky field in the Caspian Sea was put on stream by LUKOIL in 2016*

## INVITATION

Panel Discussion:

***LUKOIL's approach to securing environmentally responsible operations***

- *LUKOIL's best environmental practices from operations in more than 30 countries*  
*Vladimir Gerasimov, Head of Regional Policy Division, PJSC LUKOIL*
- *BaSEC and BASMIN Projects, RU-NO Barents and ACCS INTPOW (INTSOK) Projects*  
*Olav Knutsen, Member of the Board, BASEC / HSE&Q Manager, LUKOIL Overseas North Shelf AS*

Challenges and solutions for operations in the cold climate and sensitive environment will be discussed. LUKOIL will present its technologies and approaches used in the international offshore and E&P projects. LUKOIL's standards of compliance with the Zero Discharge policy have formed the basis of the Helsinki Commission's recommendations for projects on the Baltic shelf. The panel discussion will be joined by representatives of the BASMIN and BaSEC projects to showcase the added value of cooperation for safer operations offshore.
